

AK-Nord

AK-SECURE-SOCKET-SWITCH

The **AK-Secure-Socket-Switch** is a switchable IP socket, which allows you to switch on and off any power consumer, to monitor them and to measure the current power consumption.

- Due to the integrated micro switch you don't need any additional power supply cable
- two integrated network connections
- Lots of additionally programmable software functions
- high-performance and safety relay which is equipped with silver-tin-oxide contacts (AgSnO₂)
 - high switching capacity
 - high durability
 - reliable and trouble-free operation

Technical data

Current supply

110 – 230 volts, 50/60 Hz
about 1.2 watts

Dimensions

135 x 55 x 40 mm

Housing

Impact-proof ABS plastic

Ethernet (MDIX)

Switching capacity

110 – 230 V, 50/60 Hz
10 A or 2300 watts

Weight

200 grams

Temperature range

-40°C .. +70°C
